Subject: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations')

Dear Sir,

We are pleased to inform you that our material subsidiary, 20 Microns Nano Minerals Limited, has received recognition from the **Department of Scientific and Industrial Research (DSIR)**, Ministry of Science and Technology, Government of India, for its in-house Research and Development (R&D) unit.

This prestigious recognition underscores the company's commitment to advancing science, technology, and innovation. It validates the R&D unit's capability to conduct cutting-edge research that not only propels industrial growth but also benefits society through sustainable solutions.

The DSIR recognition positions 20 Microns Nano Minerals Limited as a leader in its field and enhances its reputation as an innovator driving India's industrial revolution in Nano Sizing Chemistry of Minerals and Specialty Chemicals. The company is at the forefront of developing formulations for sustainable and advanced industrial solutions.

This recognition also unlocks several benefits for the company, including:

- **Tax Benefits:** Expenses related to Research and Development (R&D) qualify for tax deductions under the Income Tax Act. Additionally, businesses can avail of customs duty exemptions and other tax incentives on importing R&D equipment.
- **Access to Subsidies and Grants:** Eligibility to apply for government funding to accelerate R&D projects.
- **Collaborative Opportunities:** Enhanced access to partnerships with government-funded institutions and universities for advanced research initiatives.

20 Microns Nano Minerals Limited was established in 1993 as Speciality Minerals Private Limited. Over the years, it has emerged as a pioneering force in the industry by blending innovative research with sustainable practices. The recognition from DSIR marks a significant milestone in its journey of fostering innovation and excellence.
